

FORMAL DEMAND  
FOR SURRENDER

Rebels Set Time for Capitulation of Juarez.

## MADERO PLANNING AN ATTACK

Insurrecto Commander Marching on City at Head of Nearly Two Thousand Men—Federal General Curtly Denies Having Received Any Communication Asking for Surrender of the Place.

El Paso, Tex., April 20.—A formal demand was made on General John Navarro for the surrender of Juarez to the insurrecto army of Francisco I. Madero, Jr., within twenty-four hours. The demand reached General Navarro's headquarters while he was inspecting fortifications for the city's defense.

The above was confirmed by Gonzales Garcia, secretary general for the insurrecto party, who said:

"Formal demand of the insurrectos for the surrender of Juarez within twenty-four hours has been made on General Navarro, commanding the federal garrison of Juarez. The note was sent from El Paso by a messenger to United States Consul Edwards in Juarez, to be transmitted by him to Navarro. No reply has been received."

Later it was learned that Consul Edwards delivered the note in Navarro's headquarters while the latter was away on a tour of inspection. General Navarro said:

"I have received no notice asking me to surrender."

## IS MARCHING ON JUAREZ

General Navarro at Head of Nearly Two Thousand Men.

Insurrecto Camp, Town of Madera, Chihuahua, Mex., April 20.—Francisco I. Madero, Jr., is marching on the city of Juarez at the head of 1,940 insurgents, divided into five columns, one under the direct command of Madero, and the others under the rebel generals, Orozco, Blanco, Villa and Salazar.

Abraham Gonzales, so called provisional governor of Chihuahua, received a report from the insurrecto chief reporting twenty-eight federals killed in a brush between the advance guard of the forces moving on Juarez and a detail of troops sent south by General Navarro at Juarez.

## GARZA HEARS FROM MADERO

Leader's View of Armistice, However, Is Not Disclosed.

El Paso, Tex., April 20.—Gonzales Garza, in charge of the El Paso revolutionary junta, confirmed the report that he had sent messages to Francisco I. Madero on the question of an armistice, preceding peace plans and said he had received an answer from Madero, but declined to talk further on the subject. Garza said he would himself make a trip to see Madero as soon as he received safe transportation through the federal lines.

## REBELS TAKE SMALL TOWN

Nazas, in State of Coahuila, Falls After Day's Fighting.

Torreon, Mex., April 20.—Nazas, a town near Piedras, in the state of Coahuila, was captured by rebels after a day's fight, according to reports received here. The town was defended by but thirty men, while the number of the insurrecto force is placed at eighty-six, under Cipriano Fuentes.

## REBELS ARE NEAR ATLIXCO

One Thousand Said to Be Preparing to Attack Town.

Atlixco, A. State of Puebla, Mex., April 20.—A body of rebels said to number 1,000 is reported to be preparing to attack this town, which is now well garrisoned.

The main body of the rebels is said to be in the hills near Tepeojuma.

## FAVORS FEDERAL INCOME TAX

New York State Ratifies Amendment to Constitution.

Albany, N. Y., April 20.—By a vote of 35 to 16 the senate ratified the resolution approving the proposed income tax amendment to the federal Constitution, which was defeated last year by a single vote in the assembly. The resolution is expected to be acted on by the assembly within a short time and no doubt is expressed of its adoption.

A lively debate preceded the vote, the Republicans generally opposing the amendment, while the Democrats favored it. Only one Democrat voted against the measure, while six Republicans broke from their fellows and supported it.

## Lincoln's Health Poor.

Chicago, April 20.—Robert T. Lincoln will retire as president of the Pullman company next month, according to a statement printed here. The continued ill health of Mr. Lincoln is given as the cause of his impending retirement from the active management of the corporation.

## MRS. W. C. STORY.

Candidate for President  
General of the D. A. R.

## WARM TIMES IN THE D. A. R.

Suit Alleged to Be Part of Campaign for Presidency.

Washington, April 20.—Miss Florence G. Finch, named as defendant in a suit brought by Mrs. Julia Moody, vice regent of the Manhattan chapter of the Daughters of the American Revolution, for the recovery of \$1,500 for which Mrs. Moody claims to hold two promissory notes, to denounce the suit as a political move to injure Mrs. William C. Story through her friendship with Mrs. Finch. Mrs. Story is a candidate for president general of the D. A. R., against the incumbent, Mrs. Matthew T. Scott. The congress of the D. A. R. now in progress here has developed into a pitched battle between the rival camps. "I do not owe Mrs. Moody money," declared Miss Finch indignantly. "I have paid the money she claims I owe her, and she has not returned the shares of stock given as collateral. The whole suit is ridiculous and timed wholly with a view to D. A. R. politics."

Mrs. Story precipitated the imbroglio and claims to have Mrs. Scott defeated for re-election. Mrs. Scott's supporters express themselves as positive that she has enough votes to elect her by a handsome majority.

CONSOLIDATION OF  
CANADIAN MILLSMinnesota Plants Involved in  
Big Financial Deal.

Montreal, April 20.—One of the most important developments that has occurred in milling circles of Canada for some time was brought to a successful conclusion when A. J. Nesbitt, managing director of the Investment Trust company, closed negotiations for the consolidation of the International Milling company of Saskatchewan and Minnesota and the Canadian Cereal and Milling company. Through the consolidation will result an all Canadian organization, the Canadian Cereal and Milling company obtaining, through the International, a large connection in Western Canada, while in turn the International will secure advantages of connection of the cereal company in Ontario and Eastern Canada.

Nesbitt announced that in order to carry through the consolidation the International Milling company of Canada, Limited, was being formed with an authorized capital of \$3,500,000 and 2,500,000 of common stock, of which there would now be issued for acquisition, shares of International and Cereal companies, \$2,500,000 preferred and \$1,000,000 common. There will be authorized also a bond issue of \$2,000,000, of which \$1,500,000 will be outstanding.

## Postoffice Safe Robbed.

Dodge Center, Minn., April 20.—Yeggmen blew the safe in the postoffice here and secured about \$100 in cash. Nitroglycerin was used to blow open the safe, the door of which was completely demolished. The iron box in the safe was carried to the stock yards and pried open. The money was extracted but no stamps were taken. No clue to the robbers has been found.

## Dies as Result of Fight.

Minneapolis, April 20.—Christopherson, thirty-five years old, died at the city hospital from hemorrhage of the brain. Ericson was in the face while engaged in a fight several days ago. He was accompanied by Carl Youngquist, who says they were leaving a saloon and were attacked by two other men. A description of the men who are alleged to have made the attack was given the police and a search for them has been started.

## Train Kills Town Official.

Sheboygan, Wis., April 20.—P. J. Brill, president of the village of O. J. near this city, was hit by a Northwestern train and instantly killed. His head was severed from the body.

ANOTHER STORY  
ABOUT MEXICO

This Time It Is Said That Wilson Saw Anarchy.

## LIKE CONDITIONS IN CHINA.

Telegram to President Taft Said to Have Expressed Opinion That Repetition of Boxer Outbreak Was Possible—Congressman Sulzer Says Party Lines Stop at Nation's Boundary.

By ARTHUR W. DUNN.

Washington, April 20.—[Special.]—That Ambassador Henry L. Wilson became very much alarmed at the situation in Mexico is the latest information regarding the movement of troops to the Mexican border. He saw there conditions similar to those in Peking when the foreign legations were besieged in the China Boxer troubles and sent such a frantic dispatch to the president that troops were at once ordered to go to Texas for maneuvers.

President Taft in giving the order General Wood was careful to say that the troops were not to cross the border until congress should say so, but he wanted them there ready to move if it became necessary. It would not have appeared very well on paper or in an official statement to say that the government had erected no guarantee protection to the foreigners and was no better than the Chinese government at the time of the Boxer troubles.

The document in the case will not be made public unless a fight in congress makes it necessary.

## Nonpartisan Foreign Affairs.

William Sulzer, chairman of the house committee on foreign affairs, says that party lines do not extend beyond the borders of the country and, while there may be partisanship in domestic affairs, that there must be united action in dealing with foreign nations. That seems to give an assurance that there will be no effort to discredit the action of the administration in the Mexican movement. But there may be a suggestion that the movement of troops was purely domestic, in which event it could be made the subject of party differences.

"It ought to be made as emphatic as could be stated," said Sulzer, "that Japan was in no way concerned in the movement of the troops. All the stuff sent out on this subject originates with and is put out by the junta at San Antonio."

J. Hampton Moore believes that if the nations of the earth would agree not to sell discarded firearms to insurrectos there would be much less disturbance in many of the inferior countries. He is going to make a move in that direction, with a view of cutting off the supply of arms to the revolutionists, who can afford to fight when they get arms cheap.

## Both Out of a Job.

Dorsey Shackelford of Missouri is once a member of the important committee on interstate commerce, but Minority Leader Williams and Speaker Cannon removed him because they did not like his views. Now Shackelford is a member of the more important committee of ways and means.

"I don't care much about it," remarked Shackelford. "I did want to stay on the other committee at the time, but I am not much interested now. Both Uncle Joe and myself are now out of our old jobs."

Taking Care of Delegates. Looking over the list of committees it is noticed that Delegate Cameron of Arizona is a member of four good committees and that Delegate Andrews of New Mexico has three committees. Both are better placed in regard to number than any other members of the house. But it may be that their positions will not last very long, as the admission of those territories as states will abolish the delegates. Besides, they do not vote in the house or on the committees.

Defender's Experience. "I have had experience with the newspapers," remarked Congressman Diefenderfer of Pennsylvania. "I had been in China just previous to the Boxer uprising, and when I came home I told the newspapers about the conditions. My views were widely circulated, and I heard from it, you bet. Why, my mail came in by the basketful for weeks and months, mostly letters of denunciation. You see, I told the truth about the causes of the troubles—said they were largely stirred up by the missionaries—and the friends of those people jumped on me from every part of the country."

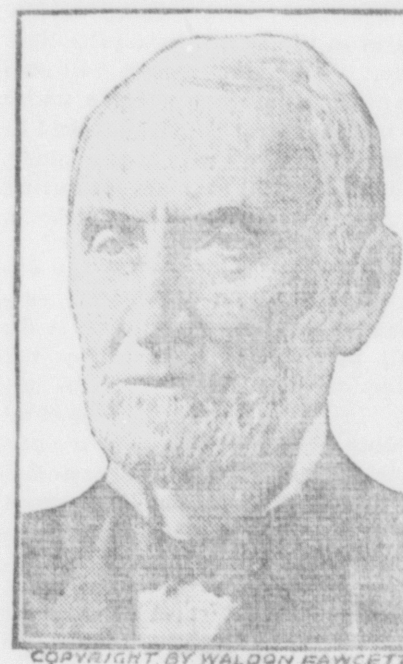

"Skidded Out." Congressman Raker of California located himself in one of the desirable rooms of the house office building, but did not stay long.

"I am skidded out, if you know what that means," said Raker, who comes from a country where they have a great deal of lumbering. "You see, I located here, but I am now getting out because Weeks of Massachusetts wants it, and he gets it by right of seniority."

In the army posts where many of officers have to move because an officer of higher grade wants the house it is called "ranked out."

## DECLARE COWAN WAS SOBER

Witnesses for Jurist Deny Stories of Intoxication.

Bismarck, N. D., April 20.—Mayor P. J. McClory of Devils Lake and Attorney E. T. Cuthbert, members of the counsel for the defense in the Cowan impeachment case, were the principal witnesses on the stand.

That there was no truth in the testimony offered by George Hancock of Fargo that he had seen Cowan so drunk on the bench that he "wobbled in his chair and dribbled at the mouth," was the statement of Mr. McClory, an attorney in the case that was in progress at the time in question.

Both Mr. McClory and Mr. Cuthbert, with reference to the trial of the McKees vs. Haley case, said that Judge Cowan had taken a drink or two during the noon recess, but that he was not drunk and that he was awake during the entire time.

NORTH DAKOTA MAIL  
CLERKS STIRRED UPChief Clerk Intends to Put All  
Men on Record.

Grand Forks, N. D., April 20.—As a result of a letter sent to railway mail clerk on division 10 by Chief Clerk McBride, in which the latter says that he intends to put every clerk in the district on record as to affiliation and sympathy with the Brotherhood of Railway Postal Clerks, one of the bitterest clashes yet experienced between the clerks and postoffice department at Washington has been stirred up.

Mr. McBride declares in the letter that "as the obligation to brotherhood means criminal conspiracy against the government it is clearly unlawful."

In the letter he asks all clerks whether they are members of the brotherhood, whether they are in sympathy with the movement and, if so, he asks them if they will withdraw from the order and refrain from any effort to advance its interests.

One and all clerks in Grand Forks denounced the move as "trampling on their rights" and "as a movement where the government is taking things for granted."

One clerk said he and a number of other men positively would refuse to sign the letter or answer the questions.

One of the contentions of the mail clerks is that they should be allowed to petition congress on grievances.

The International Milling company has four mills in Minnesota and Iowa and one mill in Moose Jaw, Sask., having a combined total daily capacity of 6,000 barrels of flour and 600 barrels of rolled oats and oatmeal.

The capacity of the two companies when consolidated will be 9,000 barrels of flour and 3,000 barrels of rolled oats a day.

## INCREASES CONSCIENCE FUND

Baltimore Woman Gives Uncle Sam \$10 for Smuggling.

Washington, April 20.—A woman smuggler, conscience stricken, sent to Secretary MacVeagh a \$10 bill, with the suggestion that the treasury invite contributions of that sort and relieve many a relentless soul of a burden.

The woman, signing herself "L. D.," wrote from Baltimore, saying she had smuggled some dutiable goods when her conscience was not well educated. "You can help many 'born smugglers' to atone for misdeeds if you will show them how to refund," she wrote. Contributions to the fund of "conscience" on the treasury books, begun in 1811, now totals \$420,000.

## Indians Urge Investigation.

Washington, April 20.—A delegation of Indians from the White Earth Indian reservation, headed by a member of the Beaulieu family, has arrived in Washington to urge an investigation of the White Earth allotments and a new roll of allottees. Their request is based on the ground that many half-breeds, entitled to unlimited titles to their allotments, have been listed with fullbloods and have been given restricted conveyances of lands.

## GOPHER TABLET UNVEILED

Marks Gift of Minnesota D. A. R. to National Society.

Washington, April 20.—The bronze tablet erected by the Minnesota chapter of the Daughters of the American Revolution to commemorate Minnesota's gift to Continental Memorial hall, the south main stairway, was unveiled with much ceremony. The entire Minnesota delegation attending the twentieth continental congress of the society were present, as was Mrs. Matthew T. Scott, the president general, and other influential members of the organization.

Mrs. Cyrus W. Wells, the state regent, made an address at the unveiling of the tablet.

## WOULD CHANGE WATER TAX

President of South Dakota Association Confers With Officials.

Washington, April 20.—The reclamation service is to be asked to graduate the scale of payments required of settlers on the Belle Fourche irrigation project in South Dakota. E. G. P. Tyndale, president of the Belle Fourche Valley Water Users' association, arrived in Washington to confer with officials of the service. He will ask them to replace the water tax scale which now requires a uniform payment annually for ten years of \$3 an acre, with a scale which will make the first payments required smaller, and the later ones relatively larger.

## PAYS HIGH PRICE FOR SKIN

Lagrange (Ind.) Farmer Buys It for \$10 a Square Inch.

Fort Wayne, Ind., April 20.—At the rate of \$10 per square inch Henry Prough, a wealthy farmer of Lagrange, Ind., already has spent \$230 for live skin from his fellow men to replace a skin he lost in an accident by fire a few days ago.

Two neighbors have shared a total of twenty-three square inches and the Fort Wayne surgeon who is performing the skin grafting operation for Prough says as much more will be needed for which the sufferer will pay the rate he has established.

## Train Runs Off Trestle.

Coalfield, Ia., April 20.—A bridge was badly wrecked, five cars of freight and the engine tank were pitched into a deep gully and two trainmen were injured when Iowa Central freight No. 95, northbound, ran off a trestle bridge near here.

## Cannon Bitterly Denounces Influence of Daily Press.

## MENTIONS HERMAN RIDDER

In Course of Speech Against Canadian Reciprocity Illinois Congressman Criticizes Publishers' Association for Its Attitude in Requesting Placing of Print Paper on Free List—Declares Threat Was Made and Money Paid to Democratic Campaign Fund.

Washington, April 20.—A bitter denunciation of newspaper influence in connection with the fight over free print paper legislation during the last national campaign was made by former Speaker Joseph G. Cannon in a vigorous speech in the house, in connection with his opposition to the Canadian reciprocity bill.

"There has been a great deal of talk about the price of print paper, a great deal of talk that has run over several years," Mr. Cannon said. "The committee on ways and means of the Sixtieth congress, when John Sharp Williams introduced his free print paper bill, and it went to that committee by a unanimous vote, as I am informed, postponed action for that session of congress and did not even hold a hearing on it."

"I was speaking. They unloaded it on me. We had a stormy time. Newspaper publishers through their representatives, one of whom I shall name, Herman Ridder, demanded that I should do what never had been done before in the history of the republic—that I should recognize Mr. Williams or somebody else to rise in his place and move to discharge the committee from further consideration of that bill, which it had postponed for that session, and by the time the next session would come the presidential election would be over."

Mr. Cannon says he replied that he could not do it; that it would not be just to his party. "What happened?" he continued. "I was informed in the presence of witnesses that if the Republican party did not promptly put print paper upon the free list that great and good man who headed the Publishers' association, Herman Ridder, would support Mr. Bryan for the presidency and contribute \$100,000 to his election."

## Gave Money to Democrats.

"We did not pass it. When the time came Mr. Ridder was made treasurer of that committee and I guess he gave you boys on the Democratic side \$50,000, did he not? The newspapers say so and I have never seen it denied."

When last fall the Democrats swept into power in the house Mr. Cannon said he looked about for some means of defense and introduced a bill creating a special committee to investigate the paper question.

"I appointed that committee and Mr. Mann headed it. The criticism from one end of the country to the other, by denunciations in the newspapers, was wholly against me for that action. The committee made an honest investigation. It found a difference of \$2 a ton between the cost of production in Canada and in the United States. It was a unanimous report, the Democrats on the committee concurring."

Mr. Cannon said the house adopted the report. It went to the senate, where there was a compromise between \$6, which was the law, and \$2, the amount in the house bill, of \$3.75.

The difference between the tariff board and the Mann special committee was that Mann said \$2 would represent the difference and the tariff board said \$4.14 would represent the difference. In this bill you reject both of them under this treaty and let it in free, he said.

Representatives Hanna of North Dakota, Nelson of Wisconsin and Sloan of Nebraska also attacked the agreement in the debate in the house.

## SENTENCES ARE COMMUTED

Lives of Michael Rossi and Martin O'Malley Spared.

St. Paul, April 20.—The state board of pardons, at its meeting, commuted the sentences of Michael Rossi of Duluth and Martin O'Malley of Le Sueur Center from hanging to life imprisonment.

The board has had this matter under advisement several weeks, awaiting only the action of the legislature on the bill to abolish capital punishment. The bill passed and the papers commuting the sentences will be issued at once. The men will be transferred to Stillwater to begin their sentence as soon as possible.

## Amends Ten-Hour Law.

Springfield, Ill., April 20.—The senate passed a bill amending the woman's ten-hour law so as to prohibit the employment of females more than ten hours a day in any mercantile or mechanical establishment, factory, laundry, hotel, lodging house, restaurant, telegraph, telephone or express company, places of amusement, transportation or public utility company, or by any common carrier or in any public institution, incorporated or unincorporated.

Unless information is made in the action of the body of Minnesota law makers in the future it is quite likely that the humane society will step in and demand that persons under age be not employed as pages, and in other places in the gift of the solons, owing to the bad example set during the riotous proceedings of that body.

The most pleasant part of the duties devolving upon W. W. Rich, custodian of the federal building in St. Paul, has been eliminated by the separation of Mr. Rich from the pay roll. YOU ought to know about Kuppfit trousers—a new and better idea

At last here's a real improvement in trousers, procurable only in Young Men's Kuppenheimer Suits.

Kuppfit trousers, made by the famous House of Kuppenheimer, are worn by men who care about style, comfort and fit.

You know the fault of suspenders and belts—your trousers "high-water" or brushing the ground—that miserable slipping and "come-apart" feeling.

Positively none of it with Kuppfit trousers. Elastic gores in the sides, covered by a blind belt of same material as trousers—give under every turn and twist, yet are firm, hold tight, like a part of the body.

Kuppfit trousers are moulded to your shape.

Let us show you these new trousers. They're made in all the latest, handsomest materials, finest workmanship throughout, and priced right.

Kuppfit trousers are sold only in Kuppenheimer Suits—not separately.

## EVERYBODY TAGGED IN BRAINERD NOW

Matrons and Young Girls Distinguish Themselves in Their Vigorous Sale of Tags

### NO ONE EXEMPT IN CRUSADE

The Down Town District and the Trains Yielded Heavily in the Morning

Braingerd's first TAG DAY was ushered in by balmy skies, soft breezes, just the kind of weather which induces a spirit of optimism in a community and causes a man to have a friendly feeling for his fellow man.

At seven o'clock sharp the first man spotted by a lady tagger paid 25 cents for his tag and after that the sallies of the ladies commenced in earnest and any man who had an idea that he could run through the cordon of ladies without buying was mistaken.

A traveling man, fresh from the cities, looked at some of the girls and was met with smiling faces and imagined he had made an impression until he was informed it was tag day and then he bought.

Every man, woman and child in Braingerd appears to be tagged. The Dispatch office is tagged, even the bull pup and the devil.

At ten o'clock tags ran out in some quarters and the Dispatch dropped every other job on the hook and ground out thousands more.

The employees of the Northern Pacific railway shops had invested so heavily in tags that they had bought up the whole visible supply and the ladies came to every newspaper office in the city and besieged the job departments for more tags. In this rush order some tags came forth V. P. instead of V. N. but they sold just as well and did not cause a slump in the tag sale receipts.

At some of the corners the ladies have brought chairs and tables and are enabled to gain a few minutes rest. It resembles the charge of the insurgents in Chihuahua, Mexico. As soon as one relay of workers is tired out, a fresh force is set to work to charge the army of untagged ones.

Lumberjacks coming from the woods, farmers from the country, guests of the hotels, shop employees, drillers and miners, business men and professional men, all classes and shades of society, contributed their donation to the support and institution of a visiting nurse and helped to make it a success. All the ladies and children gave and many of the tots had saved their pennies for the occasion.

## RAILWAY PRESIDENT VISITS THE RANGE

F. E. House, President of the Duluth & Iron Range Ry. and Party Tour Cuyuna Range

### GUIDED BY WM. HARRISON

News of Deerwood and Vicinity—Power Co. Will Furnish Day Power Soon

Deerwood, Minn., April 19—A distinguished party of visitors arrived in the private car of President F. E. House, president of the Duluth & Iron Range railway last evening and under the guidance of one of its members, William Harrison, toured the Cuyuna range in an automobile. In the party were President House, William Harrison, A. W. Taussig, a real estate man and A. L. Agatin, a prominent attorney, all gentlemen being of Duluth. Mr. Harrison owns half the fee of the Kennedy mine, the first producing mine of the Cuyuna range. He has also heavy interests in every section of the Cuyuna range and it was with a feeling of some pride that he took Mr. House over the range and gave him his first view of the scene of active operations, of the exploratory work, the drills and also showed him the towns of Cuyuna, Crosby, Ironton and Deerwood. They inspected the Kennedy mine and looked at the big 100,000 ton dump and examined Ironhub, three miles east, where the first ore train to be shipped from the Cuyuna range is awaiting word to advance to Superior, Wis., and be unloaded at the big, new docks of the Soo line now being rushed to completion. They also inspected the Armour, Keating, Interstate, Iroquois, Carlson, Feigh, Pine Tree and other properties and in a personal interview Mr. House said he was surprised at the activity manifested on the Cuyuna range and the wide extent of its working. The car will be attached to the Duluth passenger train on Thursday for its return trip to Duluth.

The baby son of Supt. H. J. Kruse, who was very sick recently, is regaining his health.

William B. Paton, of Superior, Wis., was a business visitor in Deerwood today.

Mrs. H. J. Ernster has returned from a visit with her parents at Owatonna.

The council met on Tuesday evening. Action was taken against a Braingerd milliner who was declared a transient vendor of goods and she was notified to secure a license in order to engage in the millinery business in Deerwood.

Dr. and Mrs. William Reid have returned from Braingerd where both had the pleasure of attending the meetings of the Upper Mississippi Medical society. The doctor is treasurer of the society and also read a paper at the meeting.

The Augsburg society meets next Thursday evening at the home of Mrs. Julia Brandt.

The "Passion Play" lecture given by Mrs. Delaitre, of Aitkin, last Friday evening, was well attended and enjoyed by all present. The program also included a solo by P. K. Wetzel, duet by Mr. Wetzel and Mrs. Pakenham and a song by Miss Irma Warner.

Carl Neuman, of Duluth, was in Deerwood today inspecting his properties on the range.

"The Cuyuna Range Power Co.," said Mr. M. D. Stoner, the president of the corporation, "will soon put on day current and furnish continuous power to the cities of the range. Within a few days Ironton will also be on the circuit, my men being now engaged in the work of setting the few poles necessary to bridge the intervening gap." It may be said that the service which this company is

furnishing is of the very best. The light does not flicker. It burns continuously. Stoner does not light the range intermittently. He's there every minute of the day.

John H. Hill, interested in the range and Ironton, was in Deerwood attending to business matters today.

Julie Jamison, of Braingerd, has a road house saloon very near the boundary line of Ironton. He is putting up a large two story building on the two acre tract which he recently purchased.

Douglas Archibald was the chauffeur who took the House and Harrison party over the Cuyuna range.

Some stranger landed in Deerwood the other night and being of a pugnacious disposition, wanted to engage in a fight immediately. He took off his coat and hat and while looking for trouble some ingenious person hid the wearing apparel and the fighting man spent the rest of the night looking for his clothes.

The Nygard store, now being near the present location of this popular store, is rapidly nearing completion. Mr. Nygard handles a stock of dry goods, groceries and provisions and has added flour and feed. As he sells at low prices he is enabled to keep a fresh stock on hand by constantly turning over and replenishing.

## IRONTON COMING CITY OF THE RANGE

Remarkable Progress is Made by This Town Platted Less Than Six Months Ago

### PLANS DRAWN FOR BIG HOTEL

Over 50 Buildings in Ironton and Many in Course of Erection—Town to be Incorporated

Ironton, Minn., April 19—The sound of hammers and noise of construction work greets the visitor when he arrives at the town of Ironton, the coming city of the Cuyuna range. Over 50 buildings are dotting the pretty townsites. To the north and a stone's throw from Ironton rise the belching smoke stacks of the big Armour mine, employing day and night shifts of busy miners and about to enter the shipping list and be one of the big producing mines of the Cuyuna iron range.

Piles of building material, brick and stone, boilers and other machinery are arriving daily over the Soo line, whose sidetracks run to the very mouth of the shaft. So close is the iron ore to this town that the first plat made had to be disturbed and some establishments will have to be removed to the new addition known as the First Addition to Ironton. The townsites company has in many instances bought back lots and the owners made a handsome profit.

In settling in a range town and investing in the same, a worker or business man should figure on the town which will be nearest to the scene of its employment. When a man works in a mine he does not wish to walk two or three miles to his work. He does not care to walk this distance, when emerging, tired and hungry, from the shaft at night. He wants to be near his work and Ironton is the town which will suit him in this regard.

It will be essentially a business town, but not without its beautiful features. Land has been reserved for the large school house soon to be built, for the pretty park and for the big depot that the ever enterprising Soo line will erect this spring. It will be a city of homes as well.

On Irene avenue and other pretty thoroughfares are springing up pretty cottages and modern dwellings. Plans have been drawn for a large hotel, metropolitan in appearance and two stories in height, covering one quarter of a city block. Duluth architects are now working on the plans. The hotel will have a lobby measuring 40 by 30 and an additional one 40 by 24 in size, which when joined will be used for convention purposes. Ironton proposes to go after the conventions of the Cuyuna range and to get them a good hotel and a proper meeting place are essential. A banking room will be on the main floor, store rooms, billiard rooms, buffet, corresponding room and a magnificent dining room and all the conveniences of an up to date hotel. On the second floor will be the sleeping apartments and the hotel when completed will rival anything on the range and in some instances eclipse them in new features.

A road costing the townsites \$1000 was constructed after repeated requests for assistance from the county commissioners had been turned down. Ed Syverson, who has charge of the local agency for Ironton lots, is completing a pretty cottage on Irene avenue and Fifth street. A large and beautiful porch is one of the distinguishing features of the cottage. Painters are putting the finishing touches to the building.

Redfield & Colburn, contractors of Cloquet and Proctor, are putting in a large store building on Ironton avenue near Fifth street.

Ellington Brothers, who will conduct a large general store also handling meats, on Third and Ironton avenue, are getting in the cement foundations of their building. The partnership is composed of H. E. and M. B. Ellington, who formerly operated a general store at Barrett and G. P. Ellington, of St. Paul. They will put in delivery wagons and go after the business of the range.

H. P. Armstrong, of Duluth, is

running a grocery store and is also the postmaster of the village.

The Dower Lumber Co. is putting in a branch.

Howard Olts, who conducted the first hotel in Cuyuna, is running the popular Olts hotel in Ironton. He occupies a two story building and the place is noted for its good meals and superior accommodations for transients and home people. The Olts hotel is the scene of the many dances given Saturday evenings and attended by all the dance-loving people of the range. A dance will be given April 29th and Prof. Knuppel's Cuyuna Range Orchestra will furnish the music. Supper will be served at the hotel.

A. Christensen has commenced the erection of a cottage on Sixth street facing the city park.

Only 700 feet from the Armour mine and less than two blocks from Ironton work has commenced on the sinking of another shaft and another mine will blossom out this year and soon be added to the great shippers of the range.

So many workers are daily arriving at Ironton that a rooming house is an imperative necessity. It will pay any man to investigate this proposition and by calling on E. A. Lamb, the townsites agent at Deerwood, he will take you to Ironton to investigate the proposition.

### No Enforced Inebriety.

A professor in the Cornell Law school was lecturing on the question of intoxication as a defense to criminal prosecution.

"Professor," asked a freshman, "suppose a man should be seized, carried into a saloon and forced to become intoxicated and then should go out and commit a crime. Would intoxication be a defense?"

"We won't go into that," replied the professor. "I don't believe a man can get very drunk without a certain amount of contributory negligence."—Success Magazine.

### Bracelets.

Bracelets have been worn as ornaments by almost every nation, savage as well as civilized.

### An Undeclared General.

The famous Russian general Suvoroff was a commander destined never to suffer defeat. He gained several victories against the Turks and against the Poles, and in Italy he was opposed by Moreau, and, being completely outnumbered, he effected a brilliant retreat over the mountains of Switzerland, through Germany, into Russia.

### Never Out of Work.

The busiest little thing ever made are Dr. King's New Life Pills. Every pill is a sugar-coated globe of health, that changes weakness into strength, languor into energy, brain-fog into mental power; curing constipation, headache, chills, dyspepsia, malaria. Only 25c at all druggists.

### ESDON ETCHINGS

Mr. and Mrs. J. L. Hammett went to Dykeman Sunday. On the road home, near Mr. Blades the buggy broke down. Mr. Hammett and little daughter were left sitting in the buggy box. Mrs. Hammett was driving and the horse dragged her for a way and hurt her back, but not seriously.

Easter Sunday was observed by the Sunday school by some fine hymns by the intermediate class and a hymn by the infant class was very pleasing. Toy chickens and Easter eggs were distributed to all, also Easter cards.

The social-to-be or not-to-be, seem to be the exciting question of the hour. There seems to be quite a diversity of opinion on the matter. M. L. Hammett is gaining slowly and is out most every day now.

Mrs. Thompson, Mr. Petrie and Will and David Petrie are here from Little Rock, Minn.

Ruth Wickham is at home from Deerwood. She will stay home for the summer.

Frank Blades has gone to Mr. Barber's to work for the summer.

### PRESIDENT TAFT'S NAPS.

Sleeps in a Chair in His Private Office Every Afternoon.

President Taft shows daily evidence of a clear conscience. Late in the afternoon, usually between 4 and 5 o'clock, the executive drops back in a big chair in his private office and goes sound asleep. For an hour he is lost to the world; then he wakes up refreshed and ready for more business.

The president sleeps sitting up. He fears that to drop down on a couch would result in a loss of time. He could not wake up so easily; therefore he simply pulls a cap down over his eyes and takes his peaceful rest.

This does not mean a suspension of business at the executive offices. Taft's secretary and clerks are receiving callers just the same. They dispatch all who do not insist upon seeing the executive himself. The others wait. No engagements are made to see the president during the hour of the afternoon nap.

### Malayan Tree Dwellers.

Human tree dwellers are not yet extinct. A Malayan newspaper describes an interesting discovery made in South Canara. The Kudiyas, living near Mangalore, include, it appears, a clan who have become tree dwellers by necessity. They live in huts built amid palm and other tall trees in order to protect themselves against attacks of elephants and other wild beasts of the jungle. Their clothing consists of the bark of certain kinds of jungle trees, and they subsist on yams and meat. They are dark skinned and noted for their fine physique, the women being even more muscular than the men, and one of their chief occupations is honey gathering, a very dangerous employment, since the bees of Canara build their honeycombs on the treetops, often as much as 120 feet high.

### SOCIETY EVENTS

The Rowena Circle met last night at the home of Mr. and Mrs. Peter Walters and a most enjoyable evening was spent by the 50 persons present. Card tables were set and "500" was the diversion in which Miss Penney won first prize, A. T. Fisher second prize and Mrs. Frank Russell, the booby prize. All were lavish in their praise of the pleasant time provided by Mr. and Mrs. Walters which concluded with delicious refreshments.

Mrs. George H. Warner entertained at cards yesterday. Her spacious home was decorated for the occasion, the prevailing colors being green and yellow. "500" was played and Mrs. R. A. Beise won the first prize and Mrs. Mitchell the second prize. Dainty refreshments were served at the conclusion.

### Midnight in the Ozarks

and yet sleepless Hiram Scranton, of Clay City, Ill., coughed and coughed. He was in the mountains on the advice of five doctors, who said he had consumption, but found no help in the climate, and started home. Hearing of Dr. King's New Discovery, he began to use it. "I believe it saved my life," he writes, "for it made a cure of me, so that I can now do good work again." For all lung diseases, coughs, colds, lagrippe, asthma, croup, whooping cough, hay fever, hemorrhages, hoarseness or quinsy, its the best known remedy. Price 50c and \$1.00. Trial bottle free. ## LISZT AS AN IDOL

The Great Musician Was Petted by English Royalty.

A SOUVENIR OF THE MASTER.

The Singular Memento That Was Sacredly and Secretly Treasured by a Cold, Rigid and Rather Disagreeable Old Englishwoman.

"When I was a very small boy indeed," writes Ford M. Howler in Harper's, "when I wore green velvet coats, red stockings and long golden curls, thus displaying to an unsympathetic world the fact of my pre-arranged origin, I was taken one day to a very large hall. In front of us was a wooden platform draped all in red. Upon the platform was a grand piano.

"In front of me the first row of the stalls had been taken away, and in place of them there had been put three gilded armchairs, before which was a table covered with a profusion of flowers that drooped and trailed to the ground. Suddenly there was applause—a considerable amount of applause. A lady and gentleman were coming from under the dark entry that led to the artists' room. They were the Prince and Princess of Wales. There was no doubt about that even for a small boy like myself.

"And then there was more applause. What applause! It volleyed, it rolled round the hall. All were on their feet. People climbed on to their chairs, they waved hands, they waved programs, they waved hats, they shouted, for in the dark entrance there had appeared, white and shining, a head with brown and sphinxlike features and white and long hair and the eternal wonderful smile.

"They advanced, these three, amid those tremendous shouts and enthusiasm—the two royal personages leading the master, one holding each hand. They approached the gilded armchairs immediately in front of me, and the prince and princess indicated to the master that he was to sit between them at the table covered with flowers.

"He made little pantomimes of modesty, he drew his hands through their grasp, he walked quickly away from the armchairs, and because I was just behind them he suddenly removed me from my seat and left me standing under all the eyes, solitary in the aisle of the center of the hall, while he sat down. I do not think I was frightened by the eyes, but I know I was terribly frightened by that great brown, aquiline face, with the piercing glance and the mirthless, distant, inscrutable smile.

"And immediately just beside me there began what appeared to be a gentle and courtly wrestling match. A gentleman of the royal suit approached the master. He refused to move. The prince approached the master. He sat indomitably still. Then the princess came and, taking him by the hand, drew him almost by force out of my stall, for it was my stall, after all.

"And when he was once upon his feet, as if to clinch the matter, he suddenly sat down in it himself, and with a sudden touch of good feeling she took me by the hand—the small solitary boy with the golden curls and the red stockings—and sat me upon her lap. I, alas, have no trace of the date on which I sat in a queen's lap, for it was all so very long ago; the king is dead, the master is long since dead, the hall itself is pulled down and has utterly disappeared.

"I had a distant relative—oddly enough an English one, not a German—who married an official of the court of Weimar and became a lady in waiting on the grand duchess. As far as I know, there was nothing singularly sentimental about this lady. When I knew her she was cold, rigid and rather disagreeable. She had always about her a peculiar and disagreeable odor, and when she died a few years ago it was discovered that she wore round her neck a sachet, and in this sachet was a half smoked cigar. "This was a relic of Franz Liszt. He had begun to smoke it many years before at a dinner which she had given, and he having put it down unfinished, she had at once seized upon it and had worn it upon her person ever since. This sounds inexplicable and incredible, but there it is."

### Setting a Bill.

When Andrew Jackson lived at Salisbury, N. C., he once attended court at Rockford, then the county seat of Surry, and left without paying his bill, which was duly charged up against him on the hotel register, which seems to have been the hotel ledger at that time, and so stood for many years. When the news of the victory of the 8th of January, 1815, was received in this then remote section the old landlord turned back the leaves of the register, took his pen and wrote under the account against Andrew Jackson, "Settled in full by the battle of New Orleans."

### Snubbed the Czar.

Paderewski once dared to affront the czar, with the result that he soon received a note commanding him to leave St. Petersburg, where he had been booked for a number of concerts, within twenty-four hours. The czar had sent for him and paid him a neat compliment, but is said to have received the chilly response, "Sire, I am a Pole."

### No Chance to Be Cheap.

"Why do you delay proposing to that girl?"

"I'm saving up to buy an engagement ring."

"Something especially expensive?"

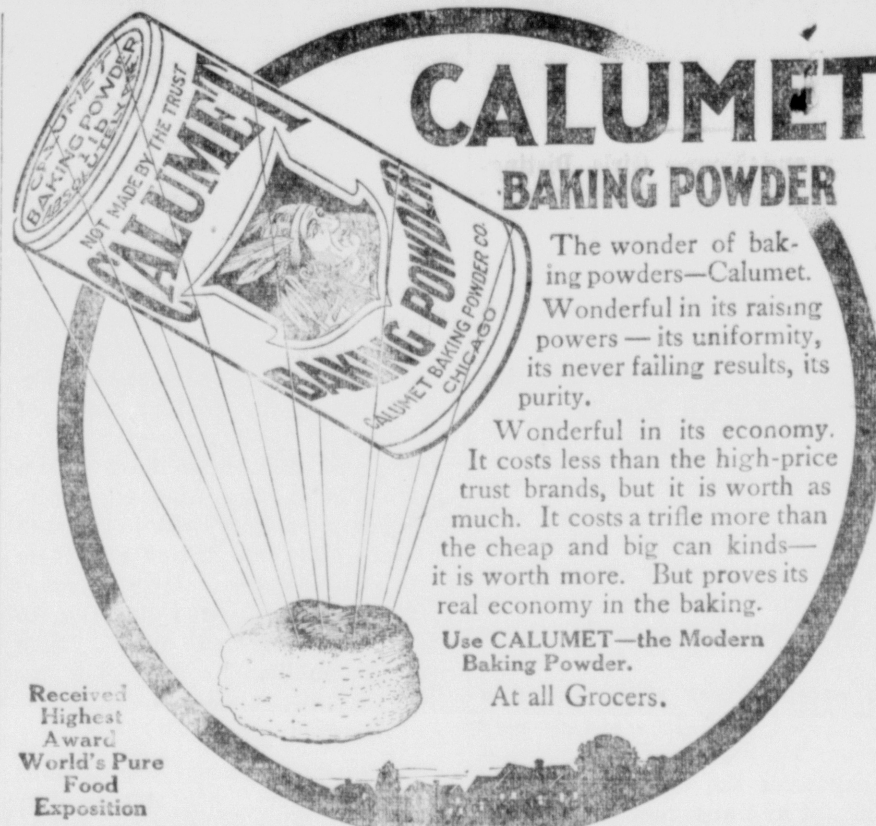

"It'll have to be. I can't fool her. Her father runs a jewelry store."—Exchange.

### Turning Away Wrath.

"I don't believe you love me any more," pouted she.

"I couldn't," replied he.

After thinking his answer over she smiled and told him she could make the same old dress do another season. —Houston Post.

**CALUMET BAKING POWDER**

The wonder of baking powders—Calumet. Wonderful in its raising powers—its uniformity, its never failing results, its purity.

Wonderful in its economy. It costs less than the high-price trust brands, but it is worth as much. It costs a trifle more than the cheap and big can kinds—it is worth more. But proves its real economy in the baking.

Use CALUMET—the Modern Baking Powder.

At all Grocers.
